

# PADUCAH GASEOUS DIFFUSION PLANT CITIZENS ADVISORY BOARD

115 Memorial Drive • Paducah, Kentucky 42001 • (270) 554-3004 • [info@pgdpcab.org](mailto:info@pgdpcab.org) • [www.pgdpcab.energy.gov](http://www.pgdpcab.energy.gov)

## Waste Disposition Subcommittee Meeting Summary February 17, 2011 • 5:30 p.m. CAB Office, 115 Memorial Drive

**Members Present:** John Anderson, Maggie Morgan, Judy Clayton, May Louise Zumwalt

**Members Absent:** Robert Coleman, Elton Priddy, Ralph Young

**Others Present:** Yvette Cantrell (RSI), Rob Seifert (DOE), Eddie Spraggs, Jay Beech, Bill Franz (LATAKy)

A May 20-21, 2011, CAB trip to Fernald OH, was discussed to learn if the dates were acceptable for the subcommittee. The dates to be given to the CAB board members.

Suggestions were gathered for the Top 3 Issues for the Spring Chairs Meeting.

- Federal funding to keep the cleanup on schedule
- C-400 path forward
- Low public attendance at the Waste Disposal Options public events in January

The subcommittee reviewed CAB Draft of Recommendation 11-02 - *Potential Moderating Criteria for WDO*. Cantrell presented a more structured Recommendation by categorizing the points in the draft by: (1) Stakeholder, (2) Future Use / Reindustrialization, and (3) Technical. Morgan commented that some points in the draft recommendation are unnecessary because of redundancy. Rewording of the recommendation was reviewed and some changes made. The subcommittee expressed interest in a Burial Grounds Project update which would help in rewording the recommendation.

Cantrell reported that she, DOE and LATAKy will be meeting to discuss a comprehensive Future Use plan. While there are attempts at several "versions" being compiled, getting all on the same page to produce a quality document would be best.

The subcommittee reviewed DOE's request for additional information on Recommendation 10-06 – *Siting Criteria for a Potential CERCLA Cell*. Due to lack of enough time for discussion, a meeting to address REC. 10-06 will be scheduled for a later date. However, the subcommittee did request an Economic Impact Study regarding potential siting of a CERCLA cell on the PGDP site.

Cantrell proposed a workshop for the subcommittee members to work through a "Cost Benefit Analysis". The workshop is tentatively scheduled for the 1<sup>st</sup> week of April, 2011.

Subcommittee members complained that they did not get materials to preview for the meeting. Cantrell assured them they will get materials in advance of future meetings.
